

Jan Vesely 602-620-9661

Born in the old Czechoslovakia, now the Czech Republic and immigrated to the USA in 1968. I was originally employed as a machine shop mechanic and welder in the Czech Republic but when I came to USA, originally settling in California where I was a painter in a Los Angeles collision repair facility. I later moved to Chicago where I first was employed as an auto painter and worked my way up to a position as an assistant manager and later a manager of the collision repair facility. During that time I received a formal education in Business Management.

I relocated to Phoenix in 1974 and was employed as a body shop manager at a Buick dealership in Scottsdale. In 1980 I realized the American Dream of opening my own business and I founded a shop in Phoenix, called Jan's European where I specialized in high end European vehicles, BMW, Mercedes, Porsche, etc..

After a successful 11 years in Phoenix I built and opened a state of the art collision repair shop in Tempe, Arizona which was renamed Jan's Spectrum Collision where I still specialized in European vehicles but also expanded to repair Asian and American makes and models. On 12/31/2015 I sold my business.

My business was always based on customer relations and satisfying their needs. I feel that the new role I have at Collision Safety Consultants allows me to still serve my old customers as well as new ones and I can continue to assure them that they will receive a quality repair and fair settlement of their claim.
